Vanguard LifeStrategy 60% Equity MPS Classic - Platform	5
Vanguard LifeStrategy 80% Equity MPS Classic - Platform	7
Vanguard LifeStrategy 100% Equity MPS Classic - Platform	9

Assessment

The Defaqto methodology involves using both quantitative and qualitative inputs to risk rate a portfolio:

Input 1 - Forecast the portfolio's future volatility

Input 2 - Discussion with the portfolio manager

Since our profiles are overlapping and not contiguous, we have some discretion as to whether a portfolio is rated in the upper or the lower profile.

Our assessment has been considered by our Investment Committee, and has taken into account some of Vanguard's suggestions when arriving at our Risk Ratings.

Investment Committee summary

Historic volatility

No historic volatilities have been used.

Stochastic (future) volatility

Our analysis has been based on holdings data provided by Vanguard.

Vanguard LifeStrategy 20% Equity MPS Classic - Platform

Mandate

The Model seeks to hold investments that will increase in value through a portfolio comprising approximately 20% shares and 80% bonds.

The Investment Adviser manages the Model through the predetermined periodic rebalancing of its exposure to shares and bonds, as detailed above.

The UK will generally form one of the largest single country exposures for shares and bonds.

Investment Committee Notes

We used portfolio holdings supplied by Vanguard to calculate all stochastic measures. Through discussion with Vanguard in which the Defaqto methodology and their approach were considered, both Defaqto and Vanguard believe that this portfolio is most appropriately risk rated as a 2.
